

Dynamic Reaction Monitoring FACILITY

Reaction Monitoring Symposium

This free-to-attend, in-person, one-day symposium will showcase the power of real-time reaction monitoring by NMR and other analytical techniques for investigations in synthetic chemistry, solution-phase catalysis and biological systems.

UNIVERSITY OF
BATH

Tuesday
28th January 2025
9.30 – 17.00

Chancellors' Building
University of Bath
Claverton Down, BA2 7AY

Confirmed speakers

Prof Liam Ball (University of Nottingham, UK)

Annabel Flook (University of Edinburgh, UK)

Dr Alex Forse (University of Cambridge, UK)

Dr Kerstin Münnemann (University of Kaiserslautern-Landau, Germany)

Dr Marc Reid (University of Strathclyde, UK)

Dr Maxie Roessler (Imperial College London, UK)
